ECO-FRIENDLY

CITIZENS OF PLANET EARTH:

The Domaine du Colombier has been a member of 'Quality Tourism' since 1997. This policy of quality and environmental management ensures that we continually invest more in order to offer what's best for everybody: electric vehicles, water management (special taps, sprinkle programmes), electricity management (low energy light bulbs in all new rentals and new office buildings...), limiting chemical products and treating waste disposal. The planet's future is our children's future. You can also actively participate in their protection by: turning off lights when you leave a room, not wasting water: turning off taps when you're having a wash or cleaning your teeth, sorting rubbish before throwing it out. Respect Mother Nature and the Sea: she's a source of beauty, the oxygen provider, the earth's protector. With a bit of care and attention we can offer ourselves a happier future.

In accordance with current European law concerning recycling, please bring your rubbish to the waste disposal unit near the entrance to the campsite, next to the mini football pitch and the supermarket.

Here you will find special containers for glass, plastic, paper and cardboard. Please place other everyday household waste in the correct bins.

You should only turn on the air conditioning when you are present and after having closed the door and the windows. The temperature should not be regulated under 24°C to be efficient and so as not to be a risk to your health.

Please refrain from throwing stones in the trees and in flowerbeds, from cutting branches and throwing dirty water on the plants and flowerbeds. Any damage caused to the flora and fauna, fences and other equipments of the campsite will be charged to the person responsible.

Water is precious in the South more than anywhere else: please do not turn off the garden hosepipes (droplets), and please inform us of any leaks. Please do not wash your vehicle on the campsite. There is, however, a carwash called La Baleine, only 600m away from the campsite: take left upon exit of the campsite and on your left.

Citizen of Planet Earth

Domaine du Colombier is working for a better future.
Every day, simple actions will allow us to progress together.

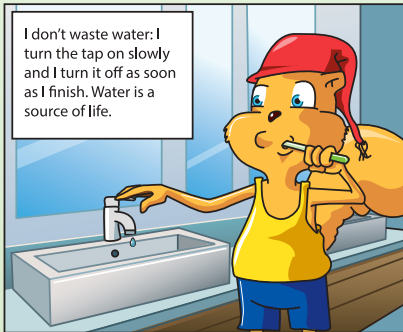

We are 7 000 000 000 people.
Looking after our planet is easy.

When I go places: I prefer going by foot, by bike or using public transport or carpooling.

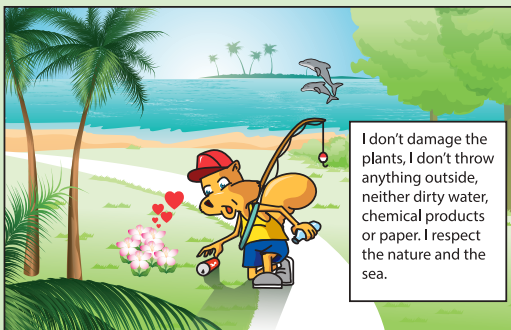

When I leave a room: I turn off the light, my computer and the television. I heat or air-condition when I'm in the house. I don't forget to close the doors and windows.

I don't waste water: I turn the tap on slowly and I turn it off as soon as I finish. Water is a source of life.

Each day I sort my recycling: paper, glass, plastic, household waste.

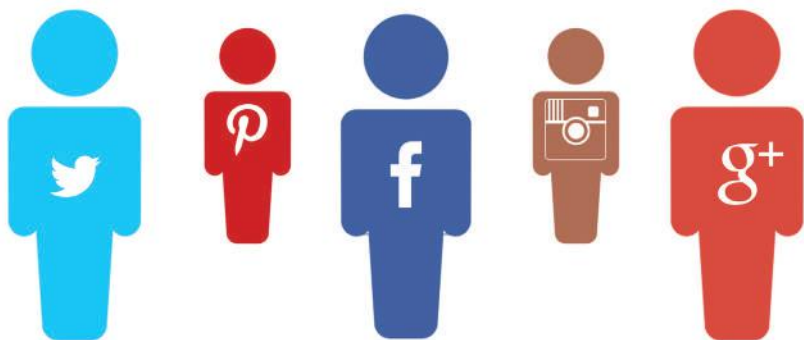

I don't damage the plants, I don't throw anything outside, neither dirty water, chemical products or paper. I respect the nature and the sea.

I eat local produce and products that are in season
